Hague Blue

A deep dark blue

This strong blue takes its name from the fantastically coloured woodwork much used by the Dutch, and still works wonderfully to ground skirtings or as an accent colour on the walls when teamed with Borrowed Light. The green undertones of this timeless, deep and dramatic blue means it sits as happily outside as it does in small dark rooms.

Recommended Primer & Undercoat

Dark Tones

When it comes to using dark colours, the deeper the better. So, for an irresistibly inviting finished look, pair darker shades with our Dark Tones Primer & Undercoat. Based on the colour of Down Pipe, combining this primer with your topcoat creates an unrivalled richness and makes quite the statement.

Made with the same natural ingredients and pigments as our topcoats, our Primer & Undercoat is the crucial foundation for creating a rich, even and longer lasting finish.
